Site Licence Application

For Large Display Monitor and Mobile Display Monitor

Meko offers site licences for both the Large Display Monitor and Mobile Display Monitor publications. Each week, the newsletters are prepared in Adobe Acrobat format (in both A4 and letter sizes). These are either sent to nominated email accounts or can be downloaded from the site (an email is sent to say the issue is ready). A sample of the newsletters can be downloaded from our website.

Recipients can print copies of the newsletter or circulate the PDF file, within the scope of the site licence, using email or internal databases. The Acrobat format preserves formatting and graphics within the document.

Large companies gain a much greater benefit from this facility, so we charge different amounts for a site licence according to the size of the company. The size is determined by the number of employees (and the number of nominated readers is related to this).

The annual subscription is as follows:

	One Newsletter	Both Newsletters
Small 1-49 employees (up to 5 named readers)	\$1499*	\$2499*
Medium 50-499 employees (up to 49 named readers)	\$2499*	\$4249*
Large 500+ employees	\$3499*	\$5999*

*Prices are in US dollars. Prices in pounds or euros are available on request.

There is normally a surcharge for more frequent billing

Where a company has a national or departmental structure, site licences can be agreed for individual countries or departments, providing the scope of the licence can be clearly defined. Please ask us.

If you have individual requirements that don't fit this scheme, please contact us so that we can establish what scope of licence would be appropriate.

Subscribers who have a site licence can purchase paper copies for use and delivery at the site at a cost that reflects the postage and printing costs. Please contact us for a quote if you need paper copies.

Please note: All licences are subject to copyright and newsletters may not be circulated outside the scope of the licence.

Site licences are subject our *Money Back Guarantee*.

Site Licence Application

The cost of the licence is related to its scope, which is measured by the number of employees within that scope. It is not related to the number of readers, as an electronic version can easily be redistributed at will. If you wish the scope of your licence to be restricted to a geographic area or a company division, please be precise when defining the scope. We reserve the right to reassess the licence if the company increases its workforce within this scope.

Licence for: (please tick) Large Display Monitor Mobile Display Monitor Both

Company name	
Contact name	
Address	Telephone
Email	
Scope of subscription (e.g. company/division/location)	
Number of employees within this scope	

Distribution of either Large Display Monitor or Mobile Display Monitor outside the scope of the licence will constitute a breach of copyright.
